

Stair Railing Order Guidelines

Dundalk Enterprises Inc. designs your railing free of charge if you supply us with all measurements neat and clear. Simply follow the steps below and we will process a quote for you.

- 1) Draw a side view of your stairs. (Below is an example drawing)
 - a. Specify existing posts and where we need to supply posts
 - b. Number and length of treads and risers
 - c. Measurements in between existing posts
 - d. Drawing does not have to be to scale
 - e. Specify Degrees if Possible
 - f. Specify 1 or 2 sides railing
 - g. Please provide measurements in inches/feet

- 2) Specify locations of Classic Railings and Silhouette Inserts as well as height of Railing. (36" or 42" available)
- 3) Specify 5" or 6" diameter posts (Stair Posts are not pre-drilled and may need trimming at final installation)
- 4) Mail or fax your drawings to Dundalk Enterprises Inc. with your contact information and we will return a final quote to you.
